

About Cabrera Services

Cabrera Services, Inc. (CABRERA) is an industry leader in engineering and remediation services for radioactive, hazardous, toxic, and MEC/UXO sites. Since its founding, CABRERA has distinguished itself through innovative problem solving, dedication to our clients' interests, and top quality deliverables. Safety and regulatory compliance are key corporate values and are integral to every aspect of our work. This approach is reflected in our consistent safety record that is among the best in the industry.

At CABRERA, we pride ourselves in understanding our clients' needs and providing highly qualified management and technical teams to best serve those requirements. We further serve our clients' needs through the application and integration of state-of-the-art technology and advanced scientific methods in support of engineering design, environmental protection/preservation, characterization and analysis, remedial action and site restoration. Our extensive knowledge and experience with a range of federal, state and local regulatory environments has resulted in successful site closure at over 30 individual sites nationwide.

Founded in 1994, CABRERA now has over 150 employees at 12 offices across the United States and annual revenues in excess of \$25 million. With tens of millions of dollars in contract backlog and considerably more in recently awarded contract capacity, CABRERA is positioned to continue its solid and managed growth as a top-tier company, embracing safety through science to meet a wide range of environmental and homeland defense needs. –
