

Vijay Alreja

Experience

VJ Technologies Inc.
Founder & President
1987–Present

- Shielding projects include engineering a creative vault to provide shielding for a 6 MeV linear accelerator at various DOE sites, and developing mobile lab shielding for a 450 kV source.
- In the medical field, developing DR imaging and its application to Human or Veterinary use in Fluoroscopy, cardiac imaging and general Radiology.
- Accomplishments in Europe include being the exclusive provider to SVAFO Sweden for legacy nuclear waste inspection service, being a Tier 1 supplier to Marel food inspection systems, and a partnership with James Fischer Inspection and Measurement Services.
- Projects in China and Southeast Asia include developing a complete Waste Isolation Plant for South Korean nuclear waste management, being a recognized supplier for Chinese government x-ray inspection needs, and a Tier 1 supplier for Nuctech.
- Highlights in the Middle East include being the sole provider of high energy x-ray inspection for Saudi Aramco, and working with the development team on the BRAGA nuclear waste project.

Education

State University of New York, Stony Brook, NY
1983

Masters of Science, Materials Science

Indian Institute of Technology, Bombay, India
1980

B. Tech, Metallurgical Engineering
