

Susan A. Walter, Managing Director at WM Symposia; President at Abel Key Solutions, Inc.

Ms. Walter serves as the Managing Director of WM Symposia (WMS) as of August 2020. She served as the Deputy Program Advisory Committee Chair for WMS from 2018-2020, assisting in the development of the technical program for the world's largest radioactive waste management conference. She has been an active part of the Symposia for more than 12 years in Track 7 Environmental Remediation.

Ms. Walter is Founder and President of Abel Key Solutions, a small woman-owned business specializing in business strategy and management consulting. She has more than 30 years' experience in DOE and DOD federal programs and projects with specialized expertise in risk analysis, environmental modeling, and regulatory negotiations. She has a BS and MS from Western Kentucky University and completed executive education at UCLA Anderson.
