

Chad Drummond, CEO Drummond Carpenter, PLLC

Bio: Chad Drummond is CEO and co-founder of Drummond Carpenter, PLLC and is a Florida-licensed professional engineer with over 25 years of experience. In addition to his corporate leadership activities, Chad's professional practice focuses on performing environmental simulations and designing/evaluating facilities that safely store low-level nuclear waste. He enjoys mentoring and developing staff and has served as an engineering adjunct faculty member in courses ranging from fluid mechanics to groundwater modeling and contaminant remediation.

Corporate info: Drummond Carpenter, PLLC (DC) (www.drummondcarpenter.com) is headquartered in Orlando and was formed in 2016 to provide civil and environmental engineering design and consulting services to federal, local, and private clients. DC has grown to become a leading consulting firm providing services across the continental US and now has three offices in Florida (Orlando, Miami, Cape Canaveral) and two in Michigan (Ann Arbor and Traverse City). Primary clients include NASA, US Department of Energy, Department of Veterans Affairs, and municipal entities including Orange County (FL), City of Orlando, and Detroit Water and Sewerage Department. Practice areas encompass Nuclear Disposal & Storage, Civil & Water Resources Engineering, Green Infrastructure & Sustainability, and Environmental Assessment & Remediation.
